Alzheimer's disease is not a normal part of aging. A disease of the brain that progressively worsens, will cause problems with memory, thinking and behavior. Folts Homes' Alzheimer's Support Group offers a variety of educational programs through guest speakers, special presentations and supportive programs to include:

- Warning Signs
- Treatment Options
- Stages of Disease
- Causes or Risk Factors
- Aides and Services for Alzheimer's Patients and Their Caregivers

*Get the assistance and support you and your loved one may need in treating, caring for, and coping with this debilitating disease.*
